

# 2018 Sustainability Review

The 2018 Sustainability Review highlights Kerry's ongoing progress under the Group's 'Towards 2020' programme.

Within the 2018 review, we document Kerry's ongoing efforts to positively impact on the health and sustainability of consumer diets, outlining progress made under each of the four pillars.

## **Environment:**

Read about the significant reductions in our operational footprint, most notably in our carbon and waste intensity.

## **Marketplace**

Learn how we are improving the sustainability of our products from raw materials through to the impact on the final consumer.

## **Workplace**

Discover how we are continuing to make Kerry a great place to work, while ensuring we always carry out our roles responsibly

## **Community**

Find out more about Kerry's work to support communities at local level and through our internationally programmes
